

Weekly report (2013.11.4~11.10)

Done

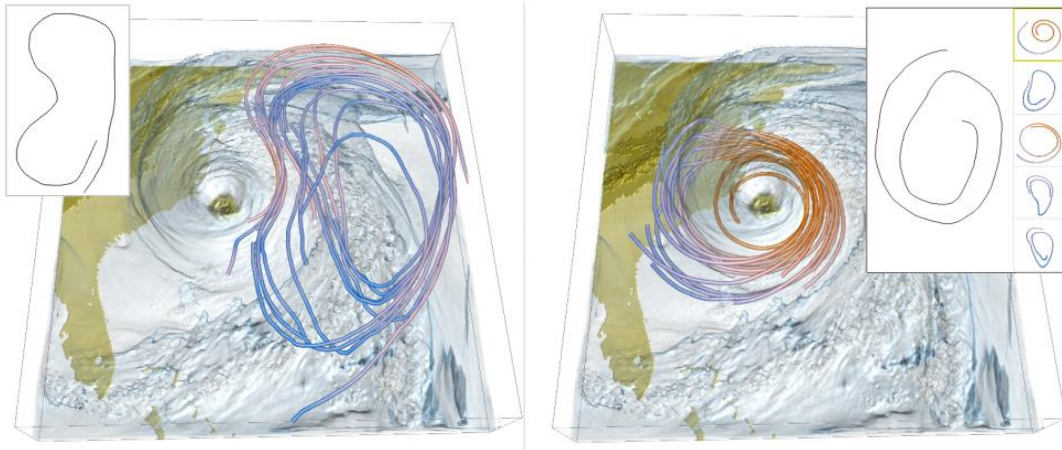

- 1) Most of the time spent on TOEFL, and I finished the test on Saturday.
- 2) I notice a paper about sketching. It uses sketch to recognize lines with specific patterns.

A Sketch-Based Interface for Classifying and Visualizing Vector Fields

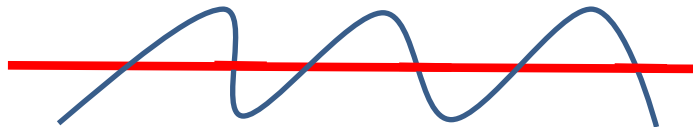

Jishang Wei*
University of California, Davis

Chaoli Wang†
Michigan Technological University
Kwan-Liu Ma§
University of California, Davis

Hongfeng Yu‡
Sandia National Laboratories

After discuss with Prof. Zhang, we wonder if we can do similar thing based on relation. Such as a winding structure shown below.

The key is how to define such relations and it's better to find some actual cases where such structure is meaning full.

- 3) 气象方面，这周继续抽时间看代码，这周把 visNgin 的组织方式，绘制的一些细节都差不多理清楚了。下一步看看 Equalizer 怎么和现有的框架进行结合，能否直接往 QGLWidget 上绘制结果。

To Do

- 1) 准备 CAD/Graphics 2013 的论文报告，周五出发去香港。
- 2) 组会论文报告。
- 3) 气象争取能有一些进展。
